COVID-19 – Changes to guidance from 1 April 2022:

The main changes are:

- free testing for COVID-19 will end for most people. Free COVID-19 tests will continue to be available for specific groups, including eligible patients and NHS staff.
- adults with the symptoms of a respiratory infection, and who have a high temperature or feel unwell, should try to stay at home and avoid contact with other people until they feel well enough to resume normal activities and they no longer have a high temperature
- children and young people who are unwell and have a high temperature should stay at home and avoid contact with other people. They can go back to school, college or childcare when they no longer have a high temperature, and they are well enough to attend
- adults with a positive COVID-19 test result should try to stay at home and avoid contact with other people for 5 days, which is when they are most infectious. For children and young people aged 18 and under, the advice will be 3 days

Easter Holidays:

School will be closed from Monday 11 April to Friday 22 April 2022, school will reopen to all students on Monday 25 April 2022.
